1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 33 depends on claim 23, which was cancelled in the amendment filed 8/13/2002.

Claims 6-9, 20-21, 33-39, 41, 43-46 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

In the parent case 08/219,179 claim 15 was rejected on art while claim 16 was indicated as allowable. In the response filed November 15, 1994 the attorney

Art Unit: 3736

incorporated the language from claim 16 into claim 15 to overcome the rejection making claim 15 allowable. In particular the "positioning means" that allows the radioactive dose means to be exposed and covered by moving the positioning means from a first position to a second position, respectively, was amended to add "a cut-out" as part of the positioning means. In the reissue claims 6, 34 and 44 the "positioning means" is claimed to move the radioactive dose means from a (first) non-deployed state to a (second) deployed state, however the "cut- out" is no longer claimed.

Claims 1-5, 10-17, 19, 24-25, 28-32, 42 are allowed.
